Short introduction of key areas of research:

Better management and preservation of soils. Evaluation of soil ecosystem services. Raising awareness of the knowledge and their role in the environment
Use of historical data for better knowledge and land use

Former participation in a FP7, Horizon 2020 or Horizon Europe?

YES NO

FOR CONSORTIUM SEARCH

Description of your expertise:

Brussels Environment
- On day-to-day basis, the work on the ground involves laying out green spaces, ensuring that they are clean and safe for users, studying any consequences of a classified structure for the neighbourhood, following up complaints from individuals, monitoring compliance with environmental standards by businesses, etc.
- Providing with practical tips to help you better respect the environment. This involves awareness campaigns, exhibitions, events, brochures, actions with schools, this website, periodic magazines and newsletters, etc.

The State Archives in Belgium:
The State Archives obtains and preserves archival documents from courts, tribunals, public authorities, notaries as well as from the private sector and individuals (companies, politicians, associations and societies, influential families, etc. who played an important role in society).
The scientific personnel of the State Archives makes archives

accessible for research by authoring inventories and other search aids such as research guides, archive overviews, guides and institutional studies. Indeed, one of the key tasks of the institution is to make these archive documents available to the public, while respecting the privacy of particular information.
The State Archives wants to make its mission and the cultural heritage it preserves better known among the general public. For this purpose it organises or co-organises various events such as exhibitions, open days, study days, colloquia, conferences and seminars, etc.,

Keywords specifying your expertise:

Citizen research
Soil quality
Sensibilisation
Soil cadastre
Recommendations and action plan
Soil historicity
Heuristics and referencing of soil data
Industrial heritage
Education
Geolocation

Commitment offered:

Research Demonstration Training
 Technology Dissemination Other:

Interested in participation in project types:

<input type="checkbox"/> Research & Innovation Action	<input type="checkbox"/> EIC Pathfinder
<input type="checkbox"/> Innovation Action	<input type="checkbox"/> EIC Transition
<input type="checkbox"/> Coordination & Support Action	

Work Programme research areas:

Call topic(s): topic HORIZON-MISS-2022-SOIL-01-09 Citizen science for soil health
topic HORIZON-MISS-2022-SOIL-01-04 Remediation strategies, methods and financial models for decontamination and reuse of land in urban and rural areas

Do you already have other partners for this topic (which partners/country)?
