**Short introduction of key areas of research:**

HAEMERS® Technologies SA is a Belgian company working in the sector of soil remediation. The Company provides the development, the engineering, and the implementation of high-end technologies for remediation of (heavily) contaminated soil. In situ (without excavation) and ex situ thermal desorption technologies by means of the patented SMART BURNERS system.

As a technology company the main objective for HAEMERS® Technologies is to capitalize on its main strength: its vast experience and know-how in thermal soil remediation. The team consists of people who have been working in the field of thermal remediation for more than 25 years.

Provided with its own laboratory and R&D facility, the Company designs and develops its own technology and intellectual property. HAEMERS® Technologies' engineers are the inventors of several patents among which the first mobile thermal systems and the award winner SMART BURNERS technology.

Innovation being in the DNA of the company, Haemers Technologies is always looking for partners to develop new soil remediation solutions.

**Former participation in a FP7, Horizon 2020 or Horizon Europe?**

YES       NO

H2020-LC-GD-2020-3

<sup>1</sup> Your enterprise is an SME if:

- it is engaged in **economic activity**
- it has **less than 250 employees**
- it has either an **annual turnover not exceeding €50M**, or an **balance sheet total not exceeding €43M**
- it is **autonomous**

For the definition of SMEs, look at: [http://ec.europa.eu/growth/smes/business-friendly-environment/sme-definition\\_en](http://ec.europa.eu/growth/smes/business-friendly-environment/sme-definition_en)

Bear in mind that the document is meant for dissemination so beware of [IPR](#) and make sure the information can be shared publicly.
